

AMERICA BETRAYED...Again

(#9 in a 10-part series)

Senator Barbara Boxer Just Voted for the Most Pork Ridden Spending Bill in History.

She calls herself an environmentalist, yet this bill will do enormous environmental and economic harm to the nation.

WHY did Senator Boxer vote for:

- Increased Logging in California National Forests (Quincy Library Group bill, which she claimed to oppose)
- Moratorium on PCB Clean-up
- Waiver on Environmental Review of Grazing Permits on Public Lands
- Prohibit Efforts to Reduce Global Warming
- Halt Review of National Forest Planning
- Delay BLM Mining Reform
- Preserve Subsidies for Oil Industry
- Remove Coastal Barrier Habitat from Protection
- Mandate Increased Logging in the Tongass National Forest
- Freeze Existing Fuel Efficiency Standards
- Circumvent Environmental Review for California Toll Road
- Delay Phase-out of Methyl Bromide
- *And Much More Waste and Destruction*

IS IT BECAUSE she cares more about her corporate pay masters than the people and environment of California?

Dont reward the Democratic or Republican Parties for betraying our democratic system. Attaching hundreds of riders like this onto a spending bill is immoral and undemocratic.

Show them we are disgusted with their performance in Congress, and were not going to continue to support them with our votes.

A VOTE AGAINST THE DEMOCRATIC PARTY IS A VOTE AGAINST HYPOCRISY AND DUPLICITY.

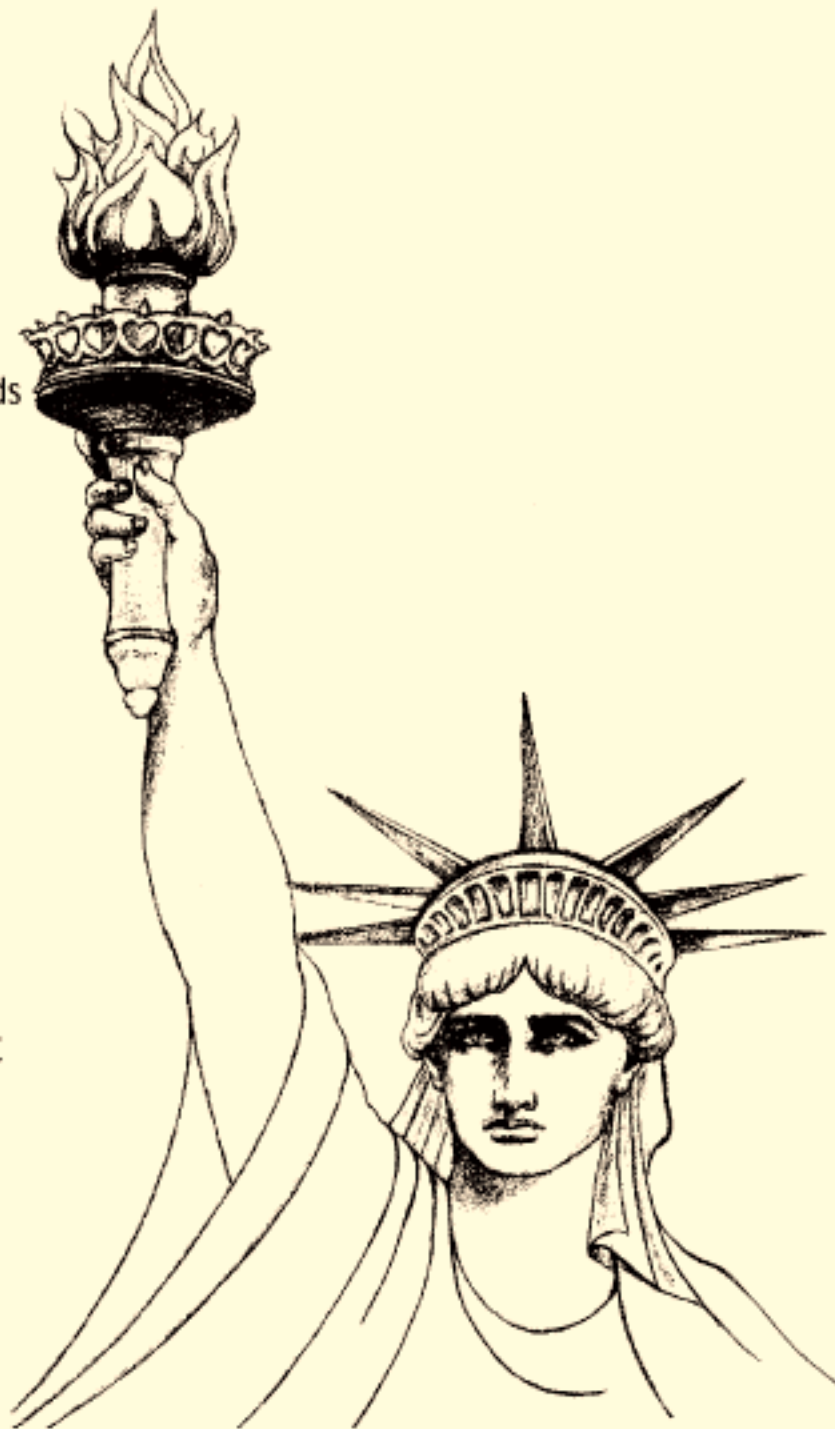

Vote **Green Party** if you truly care about the environment and social justice. If there s no Green running, vote Third Party or Independent – anything but the Democrats and Republicans who are destroying this nation; its the only way to rock the Democrats out of their hypocrisy.
